Projects

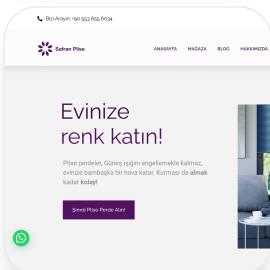

INHALT CMS | Full Stack React Project

Inhalt CMS is a content management system that allows you to create and manage your website with typescript. It is built with React, and Tailwind CSS.

Personal Portfolio Website

This is my personal portfolio website. It is built with React and Tailwind CSS. Used Github Actions to deploy the website to Hostinger.

Freelance Wordpress Projects

In the last 4 years, I have developed 6-Live Wordpress websites for clients from several industries. I have developed websites for local businesses, e-commerce websites, and learning management systems. With these I have gained experience in SEO, caching policies, minifying and lazy but most important UI/UX.
